Gaming Network Innovation

Since 2008, GNI gaming has been a key supplier of electronic baccarat shoes, shuffling machines, and playing cards across South Korea and Asia.

We also develop and produce a variety of custom products upon casino request, quickly adapting to international market trends.

Our commitment is to consistently deliver products that exceed customer expectations and ensure complete satisfaction, fueling our plans for future sales expansion.

FREE SHOE

PREMIUM

GNI gaming is submitting a proposal to casino executives (including sales reps and operators) that **offers significant advantages**. The initiative promotes **complimentary access to our advanced electronic baccarat shoe when clients purchase our specialized baccarat playing cards** at a **competitive rate**.

G-Shoe 5000 M

The G-Shoe 5000, our electronic shoe designed for Baccarat, automatically validates proprietary cards, rendering their results on the monitor upon game completion. This ensures **seamless operation** and **mitigates fraud** by maintaining a transparent and objective record of progress.

Refined Built-in Computer

- Easy setup via **HDMI** monitor cable
- Unified DC power supply
- External LAN/USB serial ports
- Long-life **SSD** disk (no HDD)
- Supports a variety of resolutions
- Built-in gaming software

Runs on a stable **Linux** system
